

Let us show you how to reduce special education costs while providing evidenced-based services to your students.

Expert Services

Since 1985, OTC has provided cost effective, comprehensive and innovative solutions to schools that support exceptional students.

Cost Savings

Contracting related services without hidden costs, administrative fees or cost issues reduces district costs of hiring employees.

Collaboration

Our therapy team works collaboratively and builds a plan to meet the individualized and educational expectations for each student.

Preventative Solutions

Implementation of early intervening services thereby reducing the need for more intensive services in the future

Supervision

We provide administrative and clinical oversight for every therapist, school and district we serve throughout the year.

Service Reductions

Development of 'exit' criteria to reduce the number of students receiving special education services.

Approved Provider

OTC, Inc. is an approved provider of related therapy services by the NJ Department of Education.

Innovative Intervention

Integration of innovation solutions to maximize student success while utilizing flexible and collaborative methods of intervention.
